New Notifications Management

New Notifications Management

The screenshot displays the 'Notifications' management interface. At the top, there are three tabs: 'Notifications', 'Idling Over 5 Minutes', and 'Properties'. The 'Notifications' tab is active, showing a list of notifications for 'Xirgo Truck2' and 'GNX US'. A red box highlights the settings gear icon in the top right of the 'Notifications' tab. The 'Idling Over 5 Minutes' tab is selected, showing a map of the truck's location. A red box highlights a notification icon on the map. The 'Properties' tab is active, showing a list of notification settings. A red box highlights the 'Edit notification' button in the top right of the 'Properties' tab. A red box highlights the 'Delete notification' button at the bottom of the 'Properties' tab.

Notifications List:

New Notifications Management

The image shows a sequence of four mobile app screenshots illustrating the steps to create a new notification:

- Properties:** A list of notification categories with a '+' button highlighted in the top right.
- Select items:** A screen with a search bar and two buttons, 'Units' and 'Groups', both highlighted with a red box.
- Notification type:** A list of notification types: Speed, Parameter in a message, Geofences (highlighted with a red box), and SOS.
- Geofences:** A screen with 'Inside' and 'Outside' buttons. A dialog box titled 'Notification name' is open, with a text input field and a 'Create' button highlighted with a red box.
